Q1. Read the following passage and answer the questions given below.

(3)

We lived in a far off village for two years when I was four. My grandparents came for a visit. They gave me a large bulky package covered in a gunny cloth. Imagine my delight when on unwrapping the package there was a blue bicycle for me. With grandpa's help I soon learnt to ride it. I would go along the bumpy roads ringing the little silver bell. Sometimes I would let my friend Ajay ride it too. Now five years later the bicycle is too small for me, but my brother rides it. He too keeps it shining and clean. My beautiful blue bicycle is the best.
